Hiring for Spatial Content Creator

Designation: Spatial Content Creator

Experience: Open to candidates with no or limited experience.

Location: Hennur, Bengaluru

Job Type: Full-time, Work from Office

About Simpencil:

Simpencil specializes in Virtual and Mixed Reality (VR & MR) technology for the Defence, Manufacturing, Healthcare, Retail and Insurance sectors. We help our clients train, demonstrate, assess, and deploy their products and services using immersive, cutting-edge technology.

At Simpencil, we aim to simplify advanced technology, making it effective and transformative in how industries engage with their products and services.

Job Description:

We are seeking an enthusiastic and creative Spatial Content Creator to join our team. If you're passionate about content creation, writing, and exploring the latest in AI technologies, this is the perfect role for you. No experience? No problem! We've got you covered.

As a Spatial Content Creator at Simpencil, you'll create engaging VR & MR content that brings training, product demonstrations, and assessments to life. Your work will include developing content for 3D learning games and interactive simulations using our flagship product [mix3d.studio](https://www.mix3d.com).

This is a fantastic opportunity to work on exciting, cutting-edge projects in the world of spatial content creation.

Key Responsibilities:

- **Spatial Writing:** Craft compelling and engaging written content for spatial platforms and immersive experiences.
- **AI Content Creation:** Leverage AI tools to produce unique and innovative content for various digital mediums.
- **Podcast Management:** Plan, oversee, and manage podcasts, including guest coordination, content creation, and scripting.
- **Content Management:** Maintain, organize, and update content on digital platforms, ensure a seamless information flow.
- **Collaboration:** Work closely with the team to align content with project goals, enhancing the overall user experience.

Qualifications:

- **Education:** A degree or diploma in Media, Communication, Journalism, Computer Science, or a related field.
- **Skills:**
 - Strong writing and content creation capabilities.
 - Basic knowledge or interest in AI tools and technologies.
 - Familiarity with podcast production and management.
 - Creativity and the ability to think outside the box.
 - Strong organizational skills and attention to detail.
 - Ability to work independently and collaboratively.
- **Experience:** No prior experience required! Whether you're a fresher or have limited experience, we will provide comprehensive training to get you up to speed. Enthusiasm, creativity, and a willingness to learn are valued over experience.
